Tutorial

Using EBSCOhost on a Mobile Device
Welcome to the Using EBSCOhost on Mobile Devices tutorial, a guide to the most popular EBSCOhost features available for use on mobile devices such as the iPhone and Android-based smartphones.

EBSCOhost can be accessed by going to [http://search.ebscohost.com](http://search.ebscohost.com) in your device’s web browser. EBSCOhost automatically recognizes you as a mobile user and displays the mobile responsive interface.
Tap the Search Box to reveal your onscreen keypad and enter your search terms. Make selections by tapping the screen.

We’ll begin by conducting a Basic Search on *global warming*.

You can view available limiters and expanders by clicking or tapping the Search Options link.
Under the **Search Options**, it is easy to limit or expand your search results.

You can choose from one of the available **Search Modes** and depending upon the databases you have chosen, you may see the ability to limit a search by Full Text articles, Scholarly (Peer Reviewed) Journals, or a particular publication that you enter in the field provided.

After making your selections, tap **Search** to run your search.
Your result list is displayed. From the result list, you have the following options:

- To view an article’s detail page, tap the article title.
- If available, you can view the full text of an article by tapping the **HTML Full Text** or **PDF Full Text** link.
- If available, view Image Quick View results by tapping an image displayed with an article’s information.
- To further refine your results, tap the Arrow on the left.
From the Refine Results area, you can apply additional limiters and expanders, as well as limit your results using facets.

Facets allow you to refine your results based on Source Types, Subjects, Publications, and more.

To use the facets, tap the facet you would like to apply to your search results.

The result list is refreshed with your limiters, expanders, and facets applied to the search.

Authors: Jiang, Wenping¹
          Huang, Gang²
          Huang, Ping³
          Hu, Kaiming³

Document Type: Article

Subject Terms: *ANTICYCLONES
              *GLOBAL WARMING
              *MONSOONS
              *SOUTHERN oscillation
              *ATMOSPHERIC circulation

Tap the Arrows on the left or right to view the options available to you when reading an article.

Tap the Result List link to get back to your result list.
Tap the arrow on the left to view the available formats for the article you are reading.

To view the full text, tap the HTML or PDF full text icon. (When available)
Tap the arrow on the right of the screen to display the Tools menu.

From the Tools menu, you can e-mail the article to yourself, along with any available full text by clicking or tapping **E-mail**.

Tap Add to **Folder** icon to add an article to the folder.
You can sign in to your personal My EBSCOhost folder to save the article permanently.
Tap the **Folder** icon on the result list or article detail screen to add articles to the folder.

Tap the **Menu** icon at the top of the screen and then select **Folder** from the menu to view the contents of the folder.
From within the folder, you can e-mail articles or tap the **Sign in** link to permanently save the articles to your personal My EBSCOhost folder.

**Note:** If you do not already have a My EBSCOhost folder, you can also create one by tapping the **Create a new Account** link after tapping **Sign in**.

To e-mail articles, open the Tools menu by tapping the arrow on the right. Select the articles using the check boxes next to each one. Tap **E-mail** and enter your e-mail address in the field provided. Select from the available format options and tap **Send**.
You can adjust your EBSCOhost preferences by tapping the icon in the upper-right corner and then selecting Preferences.

Preferences allow you to control the appearance of your mobile interface by adjusting the number of articles per page on your result list, the format of your result list articles, and the displayed language of the mobile interface.
Select from the available settings and tap **Save**.

If you are signed in to your personal My EBSCOhost folder account, you can save your preferences for future EBSCOhost sessions.

Once your preferences are saved, you will see them in EBSCOhost any time you are logged in to your folder.
At any time, you can tap the **Menu** icon and select the **Help** link to view a variety of Help topics on using EBSCOhost.
